## AUSTRALIA

[www.eaglecruisers.com.au](http://www.eaglecruisers.com.au) (check our updated website for the latest specifications and brochure)

Issue 13– May 2010

In this issue we reveal our updated brochure and specification packages for the 2010 Sanctuary Cove International Boat Show, give a preview of some new design features now available, and look at the result of the latest movements of the Australian Dollar on the price of a new build.

### **New Brochure & Specification Packages**

Each Eagle 53 is a unique example of its owner's design and lifestyle. While the main decision is between a two or three accommodation cabin design, the Eagle Cruisers Australia team will work with you to determine the many fine details that go into building your Eagle 53. We have developed three specification packages for the Eagle 53. A Build Package that includes the base boat aimed at buyers who want to start customising their build from a blank canvas. A Coastal Package that includes the options that a customer would expect to cruise the coastal waters of Australia, and finally a Pacific Package that includes all of the top of the line options. The new brochure and packages are available from our website.

Each of the specification packages is completely customisable in consultation with Eagle Cruisers Australia as the authorised dealer, and the builder, Transpacific Marine. Visits to the factory in China with the Eagle Cruisers team are recommended to view your Eagle as it is built and also provide an opportunity to meet with key builder and factory staff to discuss your plans.

### **Sanctuary Cove Boat Show 2010 (20-23 May 2010)**

Eagle 5308, launched April 2008 will be on display at the Sanctuary Cove International Boat Show this year. This vessel has travelled nearly 3000 nautical miles along the Queensland and NSW coast in a variety of conditions and has proved to be a luxurious, comfortable and seaworthy cruiser. She was lifted at the Gold Coast Marine Centre in January for an antifoul, prop speed and polish. The Dulon Marine two component polishing system was chosen for its unique longevity and protective properties.

This year we will be offering a limited number of one day guest passes to bona fide Eagle Cruisers Australia customers. Please contact us to register as an Eagle Cruiser VIP which will also allow us to give you priority boarding at the time of your inspection.

### **New Design Options Available**

At the Boat Show this year we will have a leaflet detailing some of the new options available for customers building an Eagle 53. Options for the flybridge, hardtop and sunroof, cockpit lounges, moulded swimming platform, bonded windows and larger cabin windows have been drawn up with 3D renderings to help with visualising these new options which are, of course, customisable to the owner's preferences.

### **Value of the Australian Dollar**

With 1 Australian dollar buying over 90 US cents and the global economy recovering, the timing of this year's Sanctuary Cove Boat show is favourable to those customers who are making a decision to invest in a new Eagle. With the three new specification packages we are hoping to give customers a better idea of the value that an Eagle represents compared to other brands that sometimes quote a base price that requires a significant amount of options before cruising.
