AUSTRALIA

AUGUST 2008

NO BETTER TIME TO BUY WITH STRONG AUSTRALIAN DOLLAR

With one Aussie dollar buying around 95 cents US and the Chinese Yuan steady at 6.9, those who wish to purchase in USD* will find substantial savings can be made.

EAGLE Hull 5309 on its way to Spain

The deep blue hull and contrasting top deck certainly drew a lot of attention as the hull hit the water for water tests in July. The factory's location and direct access to the water allows the boats to be put in any number of times and then loaded directly on the transport ship to be taken to Shanghai.

Eagle 5309 has a pair of Cummins QSB 5.9L straight 6 common rail 425HP engines. The bronze 4 blade 30" Diameter x 24" pitch props spinning on 57MM shafts through a ZF gearbox achieved a maximum speed of 20.1 knots & 18.8 knots in each direction at 3030RPM at 1400RPM the average speed was a lazy 10 Knots.

A full range of photos can be found at eaglecruisers.com.au. Go to Owners Club - hull number 5309 password 5309

CUSTOMER REQUESTS

saloon version 2

Following feed back from Sanctuary Cove the team at TMC have been busy researching, designing and implementing your ideas and requests. This has included: Hard top design, seating BBQ and tender configuration on the top deck, separate access to the master stateroom from the saloon. TMC have provided several plans and options but as always are happy to custom build to your request.
